RV 24V energy storage lithium battery

Overview

What are RV lithium batteries?

RV lithium batteries are rechargeable 12-volt batteries based on lithium-ion technology, specifically LiFePO₄ or lithium iron phosphate. They have become a popular replacement for lead-acid batteries, especially for those with solar power on their rigs.

How many cycles are RV lithium batteries rated for?

Some RV lithium batteries are rated to last 5,000 cycles. A battery's life is rated in cycles. A lead-acid battery will generally last 400 charge/discharge cycles or less.

What are the applications of lithium ion batteries?

8. High level of safety, vision Lithium ion batteries catch no fire and cause no explosion in breaking Applications 1. Telecommunications: cellular phone, interphone, cordless phone 2. Portable equipment: digital camera, portable DVD, portable television, 3. Portable Devices: GPS, PDA, PMP, PSP, portable medical device, instrument and apparatus etc.
