# Riyadh communication base station wind power construction plan

## Overview

---

Why is Saudi Arabia launching a master plan for infrastructure projects?

Saudi Arabia has announced its first-ever comprehensive master plan for all infrastructure projects in Riyadh for the upcoming year, with the aim to reduce traffic congestion caused by overlapping projects, optimize spending efficiency, and ensure the sustainability of developments.

What is Riyadh's infrastructure projects center?

The master plan is part of broader efforts led by Riyadh's Infrastructure Projects Center, established by a Cabinet decision in July 2023. The center aims to enhance project efficiency and improve coordination among stakeholders to ensure sustainable, high-quality urban development.

What is Saudi Arabia doing in Riyadh for 2025?

(Emarah Riyadh) RIYADH: Saudi Arabia has launched its first comprehensive master plan to coordinate infrastructure projects in Riyadh for 2025, easing traffic congestion, optimizing spending, and aligning with Vision 2030's sustainable development goals.

What does Prince Faisal say about Riyadh's infrastructure projects center?

Prince Faisal hailed the initiative as a transformative milestone for Riyadh. He noted that the Infrastructure Projects Center anticipates the urban growth of the city with careful planning, which raises the efficiency of projects and ensures the improvement of services provided to residents and visitors.

How did al-Badah restructure a project?

The process involved data collection, integration of planning efforts, and collaboration with over 15 government and service entities. Al-Badah added that more than 837 plans were reviewed and approved, leading to the restructuring of 1,737 project phases and accumulating over 100,000 work hours.

How many projects did al-Badah manage in 2025?

Al-Badah further noted that more than 837 project plans were reviewed and approved, leading to the restructuring of 1,737 project phases and accumulating over 100,000 work hours. The center also conducted over 80 workshops and automated more than 66,000 pre-coordinated permits for 2025.
