

SolarInvert Energy Solutions

Romania Communication Base Station Inverter Factory

Solar

Overview

Where are Enphase microinverters made?

Enphase has started production of microinverters in Europe. The devices will be manufactured in Timișoara, Romania, at a subsidiary of Flextronics International. Enphase Energy, the American manufacturer of microinverters, has shipped its first European-made devices. They were manufactured in the new production city in Timișoara in western Romania.

When will Enphase start production in Romania?

Enphase has already announced the establishment of European production in Romania in April 2022. With this, the company not only wants to increase its global production capacities, but above all shorten delivery times for customers in Europe.

Who is Leonardo Romania Aerospace & Defence & Security?

Since May 2004, we have been producing, assembling and integrating military telecommunications systems for terrestrial, naval and avionic applications according to NATO military standards and commercial standards. Leonardo Romania Aerospace, Defence & Security SA represents Leonardo's centre of excellence for production in Romania.

Where is Flextronics manufactured?

They were manufactured in the new production city in Timișoara in western Romania. The factory is operated by electrical equipment contract manufacturer Flextronics International (Flex). The delivery represents an important milestone in the 15-year partnership between the two companies.
