

## SolarInvert Energy Solutions

# Roof solar tiles

## Overview

---

What are solar tiles?

Solar tiles are roofing materials that can produce energy directly from sunlight. Solar tiles are integrated into the roof itself and function as both a roofing substance and a source of energy, as opposed to conventional solar panels, which are mounted on top of an existing roof.

What is a solar roof?

Solar Roof is comprised of both glass solar tiles and steel roofing tiles. Glass solar tiles produce energy, while architectural-grade steel tiles add longevity and corrosion resistance to your roof. Both are durable, strong and engineered for all-weather protection.

What are solar shingles & solar tiles?

Solar shingles combine roofing materials and solar modules into one durable building material. This way, the roof can have a beautiful, fully integrated edge-to-edge appearance while still acting as an energy-generating unit. Solar tiles work on the same principle as traditional solar panels.

Are solar roof tiles a good choice?

Glass solar tiles produce energy, while architectural-grade steel tiles add longevity and corrosion resistance to your roof. Both are durable, strong and engineered for all-weather protection. With a 25-year warranty, Solar Roof will continue to produce clean energy and protect your home for decades to come.

How to choose a solar roof?

Compared to conventional roofing materials, solar tiles often contribute greater weight. Thus, a sturdy roof is necessary to support the load. Energy production is a crucial factor to consider when selecting solar tiles. Think about solar tiles' electricity output, which is between 25W and 114W.

What is a goodwe solar roof tile?

The GoodWe Sunshine Series is an integrated solar roof tile solution for pitched rooftops to replace traditional solar panels and framework for a sleek, aesthetically-pleasing result, that also maximises your rooftop space for more solar production. The integrated tempered double-glass structure ensures the safety of the roof structure.
