

SolarInvert Energy Solutions

Russian non-standard uninterruptible power supply manufacturer

Overview

Which power supply systems are used in Russia?

The power supply systems are fully agreed with the operational conditions, accepted on the territory of the Russian Federation. Only the modern high tech units are used for the power supply system production, supplied by Eaton. UPS.

Who is the best power supply company in Russia?

In the world of power supplies (PS), it is quite a well-known company on the Russian market. I know that MEAN WELL company is the absolute leader on the PS market. I became curious about comparing these companies.

What is an uninterruptible power supply system (UPS)?

UPS. The modern uninterruptible power supply systems (UPS) are designed for the equipment protection from all possible problems that may occur in the power grid. Our UPSs are the ideal devices for the protection systems where the grid failure may have the catastrophic character.

Who imports power supplies to Russia?

Import of power supplies under the customs codes 8504408200 and 8504409000, in 2018 by distributors and brokers. The import volume of 32 distributors and brokers of electronic components to Russia amounted to \$87 million.

Who makes ippon power supplies?

The company Ippon (Krasnogorsk), founded in 2001, specializes in emergency power supplies for computer systems and medical equipment. The company offers high-quality products from the world's leading manufacturers of computer components and electronics.

Who makes mornsun products in Russia?

I should mention that until early 2019, ECO was the only official distributor of MORNSUN products in Russia, having been extremely successful in promoting the leader MORNSUN to the Russian market. ECO company exists since 2004, dealing with supplies of almost PS only. Here is what the company's website tell us.
