

SolarInvert Energy Solutions

Slovenia n-type photovoltaic panel manufacturer

Overview

How much does solar energy cost in Slovenia?

In Slovenia, the average annual solar energy yield in Slovenia is around 1038 kWh/kWp. 2 The average cost of electricity for household consumers in Slovenia is approximately \$0.2247 per kWh, while the cost excluding taxes is around \$0.1819 per kWh. 3.

Does Slovenia have a reliable electricity grid?

Slovenia boasts a generally reliable electricity grid with a robust transmission network that ensures uninterrupted and high-quality power delivery. However, grid reliability can be impacted during winter periods due to increased energy demand and reduced solar power output. 4 We can help you start your own solar module production company.

How much sun does Slovenia get a year?

Slovenia typically enjoys between 1,330 and 2,976 hours of sunshine each year, though this amount can change depending on the location and time of year. 1 In Slovenia, the average annual solar energy yield in Slovenia is around 1038 kWh/kWp. 2
