

SolarInvert Energy Solutions

Small lithium battery pack customization

Overview

What do we have for lithium-ion battery pack assembly?

For lithium-ion battery pack assembly, we offer complete solutions. This includes different sizes of barley paper, battery cells, plastic holders, nickel strip, handheld spot welder, PVC, and high-temperature resistant adhesive tape. We also provide rolls of various widths and cut the length as per customer requirements.

What packaging solutions are available for lithium batteries?

Air Sea Containers offers packaging solutions for shipping lithium batteries, including 4DV Plywood Boxes, which are ideal for batteries over 12kg. These dangerous goods packaging options have been tested and are compliant, providing flexibility to shippers transporting lithium ion or lithium metal batteries via road, sea, or air.

What is UN approved lithium battery packaging?

Our packaging is UN-approved for the shipment of Lithium Ion and Lithium Metal Batteries. It is suitable for shipment via any mode of transport. Our packaging solutions for lithium batteries include:.

What are the advantages of lithium ion?

The advantage of Lithium-Ion is the high energy density (weight-to-size ratio). We bring together our engineering, manufacturing, and quality teams throughout the service/manufacturing process to ensure you receive the finest battery power solutions for your custom application.
