

## SolarInvert Energy Solutions

# Solar Street Light 100W

## Overview

---

What is 100W solar powered LED street?

100W Solar Powered LED Street adopts an all in one design, the solar panel, lithium battery, controller and LED street light are integrated, so the installation is very convenient and the price is very competitive. As a solar street light factory, MKLIGHTS can provide a complete set of solar street light system solutions, contact us if you need.

What are solar-powered street lights?

This series of solar-powered solar panel lights use a huge LED module, which increases the quantity of lamp beads for each LED module. Compared to conventional solar street lights, our enlarged solar-powered outdoor street lights can effectively increase the brightness by 10-20%. Mainstream integrated structure design, saving transportation costs.

How does a 100W LED street light work?

Our 100W all in one solar LED street light is switched by ambient light, turned on at dusk and turned off at dawn automatically. The light is also integrated with motion sensor detector. It will work after the light is turned on. The brightness of the whole light will be changed according to the detection of people or the time as below:

Is a solar street light 100W a good choice?

Overall, the All-In-One Solar Street Light 100W is an excellent choice for anyone looking for a reliable and energy-efficient outdoor lighting solution. It offers a bright and long-lasting light source while minimizing the impact on the environment and reducing electricity costs.

How much power does a solar street light have?

100W solar panel street light, street light solar, led solar street light, solar street led light Wide power range: 30W~120W. Solar panel + led chip +

charge controller + battery all in one box. High Lumen output up to 170lm/w with high-quality LED chips.

How long does a solar street light last?

This solar street light has a 100W solar panel that converts sunlight into electricity, which is stored in a high-capacity 40,000mAh lithium-ion battery. The battery can provide up to 12 hours of lighting on a single charge, and it has a lifespan of over 5 years.
