

## SolarInvert Energy Solutions

# Solar air conditioning on Bergen Island Norway

## Overview

---

Where is solar energy produced in Norway?

Located in the Northern Temperate Zone, Bergen, Vestland, Norway exhibits a unique seasonal variation in solar energy production. During the summer season, each kilowatt of installed solar capacity can generate an average of 5.35 kilowatt-hours per day.

Where is the best place to install solar panels in Bergen?

The highest peak in the area is Mount Floyen (429 m). Areas to the south of Bergen, such as Rong, which have more open terrain and less hills would be most suited for large-scale solar PV. Additionally, areas along the coast with good access to sunlight could also be suitable for solar PV installations.

How many solar PV locations are there in Norway?

So far, we have conducted calculations to evaluate the solar photovoltaic (PV) potential in 58 locations across Norway. This analysis provides insights into each city/location's potential for harnessing solar energy through PV installations. [Link: Solar PV potential in Norway by location](#) Wanted: Exclusive sponsor for 6,370 locations Worldwide!.

How much solar energy does Norway use?

Norway ranks 70th in the world for cumulative solar PV capacity, with 225 total MW's of solar PV installed. This means that 0.10% of Norway's total energy as a country comes from solar PV (that's 42nd in the world).

Who is solar technologies Scandinavia?

Solar Technologies Scandinavia is one of Norway's leading suppliers in solar panels and battery storage. The company was founded by key personnel with extensive experience from the construction industry and as technical suppliers. We offer training at all levels of competence in assembly, engineering and all applicable regulations.

Who is Norsk renewables?

Norsk Renewables AS, formerly called Norsk Solar, is a vertically integrated independent power producer with a commercial offering that includes solar, wind, and storage. We are passionate about the clean energy transition, and we proudly focus on markets where we can significantly impact CO2 reduction, and enable sustainable growth.
