

## SolarInvert Energy Solutions

# Solar courtyard photovoltaic lighting system

## Overview

---

What is a 15W integrated solar courtyard light?

The 15W Integrated Solar Courtyard Light combines three major green energy components; the solar photovoltaic cell, the energy efficient LED lamp and the 100% eco-friendly Lithium rechargeable battery into a modern, aesthetically appealing, and environmentally-friendly package.

What is a solar court?

A solar court is a typical feature of ancient Egyptian temples, consisting of two distinctive parts: an open court and an elevated, roofed chapel that was accessible by a staircase and often located on or near the roof of the temple. The most typical feature of the court is the presence of a large freestanding altar in its very center.

Where can I use a solar power system?

Suitable for courtyards, gardens, parks, pathways, sidewalks, car parks, shopping complexes, campus, public square, hotels, chalets, jetties, office or commercial buildings and other outdoor areas that are without grid electricity supply

## Solar courtyard photovoltaic lighting system
