

SolarInvert Energy Solutions

Solar energy can be installed on European tiles

Overview

Today, the EU-funded TilePlus project is developing the first solar system made of real roof tiles. These tiles have the same size, shape, and appearance as normal roof tiles of buildings. Do solar roof tiles provide energy from the Sun?

Solar roof tiles that supply buildings with energy from the sun: wienerberger is implementing an innovative solar energy roof system in the Netherlands. To power homes by collecting energy from the sun while preserving the aesthetics of the tile roof.

What is a solar tile roof?

In wienerberger's solution the solar cells are combined with a traditional ceramic roof tile and actually built into the roof tile. This preserves the aesthetic appeal of the roof. "The new solar tile means we can combine the best of both worlds: a typical clay tile roof and efficient energy generation using solar power.

Are solar roof tiles reshaping Europe's urban landscape?

From solar roof tiles that preserve architectural aesthetics to transparent solar windows harvesting energy without compromising natural light, these innovations are reshaping Europe's urban landscape.

Where is solar roof tile made?

The solar roof tile is currently manufactured and sold in the Netherlands, where it has passed the necessary technical tests and quality approvals. A roll-out to other European countries is planned. "In the Netherlands, the solar roof tile has generated significant interest.

What is a solar energy roof?

To power homes by collecting energy from the sun while preserving the aesthetics of the tile roof. This was the ambition behind the development of

wienerberger's first solar energy roof system and in June 2021 the Alegra 10 Wevolt solar roof tile came onto the market in the Netherlands.

Is solar tile a sustainable solution?

"The new solar tile means we can combine the best of both worlds: a typical clay tile roof and efficient energy generation using solar power. This is a sustainable solution that meets today's energy and sustainability needs and will continue to do so in the future", says Jacco Venema, New Business Manager at wienerberger Netherlands.
