

## SolarInvert Energy Solutions

# Solar intelligent water pump price

## Overview

---

What is a solar well pump used for?

Beyond the listed uses, solar well pumps find application in a multitude of areas, including: Residential water supply: Ensure a steady flow of clean water for your home. Community water projects: Provide sustainable water access to remote communities. Environmental restoration: Support ecosystem revitalization efforts.

Are solar-powered water pumps eco-friendly?

Whether you are looking for the most environmentally friendly pumping solution on the market or want to give your garden a plus of beauty and elegance, a solar-powered water pump is what you should look for. It's 100% green, efficient and cheap! Each pump comes with its solar panel, and it's straightforward to install and use.

How do solar well pumps work?

Revolutionize Your Water Pumping with Sustainable Solar Well Pumps! Harness the power of the sun with our high-performance solar-powered deep well pumps. Our advanced MPPT inverters efficiently convert solar energy into electricity, driving the pump's motor to continuously extract water from depths reaching hundreds of meters.

How to choose a solar water pump system?

First, you should confirm whether the solar water pump system is direct feed or with Tank System. You can refer to the below two diagram to calculate the pump head. In practice, we normally choose the pump head 10%-20% higher than the actual demand in order to make sure the pump can work properly.

Why should you use solar water pumps for irrigation?

Whether you're in remote mountainous areas or facing unstable grid power on your farm, our solar solutions provide a reliable water source. Perfect for:

Farm irrigation: Solar water pumps for irrigation can ensure consistent watering for your crops, regardless of location.

What is a solar water pump kit?

The Solarriver Solar Water Pump Kit is perfect for large fountains, ponds, waterfalls and rainwater collection. Its solar panel comes with a stake and can be placed anywhere due to using the 16 feet long chord or even an additional 16' extension if needed.
