Solar street light 1500 watts

Overview

What is a solar powered street lamp?

A solar powered street lamp is novel because it can be off-grid and still functioning in case of power outages. It also leaves power to be available for other purposes. The "smart" portion of the street light allows it to automatically illuminate when it detects the presence of a moving body.

What is led solar street light?

Outdoor Solar Street Light □ Led solar street light uses single crystal silicon photosensitive plate with the high photoelectric conversion efficiency. Build-in High capacity battery □ 128000mAh □ can work continuously for 24-36 hours after 6-8 hours fully charged. *Multi modes.

Where can I mount solar lights?

Comes with assembly accessories set , you can mount this solar lights on the wall, pole, balcony, anywhere outdoor. No wiring required, no maintenance. IP67 WATERPROOF □ IP67 Waterproof and Weather resistance, can withstand high temperature and cold working environment (operating temperature:-22°F~140°F). High-density aluminum alloy material.

How to install a solar light?

Connect the solar light to the bracket: Please connect the solar light and solar panel power before installation, and use the remote control to test whether the solar light can work properly. 2.Install the solar panel: Connect the solar panel to the movable bracket, adjust the right angle, and then lock the screws.

What size solar panels do I Need?

- 13.7 x 23.6 inch solar PV panel. High-efficiency solar panels can absorb more solar energy. In order to maximize the lighting effect, please make sure that the solar PV panel has 6-8 hours of direct sunlight during the day.

How do solar security lights work?

Solar Security Lights, which provides your illumination for security and safety protection. Intelligent control: Two control methods for solar lights from dusk to dawn: 1. Light sensor: automatically turn on at dusk and turn off at dawn; 2. Remote control: provide convenience for long-distance use of multiple modes.
