

SolarInvert Energy Solutions

Solomon Islands solar cell wattage

Overview

How many solar homes are there in the Solomon Islands?

“Solomon Islands currently has one of the lowest levels of access to electricity in the region, with over 85% of the population of Solomon Islands still without access to electricity and for this project alone, we received over 6,000 applications to obtain only 2,000 solar home systems,” said Mr Aimaea.

What is the power generation capacity of Solomon Islands?

The power generating capacity of the Solomon Islands is currently 10.2 MW, which is equal to its peak load capacity. One mining company in the Solomon Islands generates its own electricity with a power capacity of 11 MW and a peak load of 8 – 9 MW.

What is metered electricity in Solomon Islands?

In the context of Solomon Islands, metered electricity is a strategy introduced by the Solomon Islands Electricity Authority (SIEA) to reinforce the cash value of electricity and promote efficient usage techniques.

What is the Asian Development Bank doing in Solomon Islands?

The Asian Development Bank is working with the Government of Solomon Islands and Solomon Power to convert electricity networks in five provinces almost entirely to solar power. The project will reduce the need for costly shipments of diesel to the provincial centers. LATEST PROJECT DOCUMENTS 1.

How do I apply for a job at Solomon power Ranadi?

You can submit your application either in hard copy, which you can drop off at the Solomon Power Ranadi Office or by soft copy through the restricted email: recruitment@solomonpower.com.sb. Applications close at 4.30pm, on Friday 13th April, 2018.
