Overview

What is the largest battery energy storage system in Sweden?

Named Isbillen Power Reserve, the 1-hour duration Battery Energy Storage System project will be the largest in Sweden and the largest in the Nordics by megawatt (MW) power. The largest by megawatt-hours energy capacity in the Nordics will be a 2-hour project in Finland that Neoen recently started building.

When will a battery energy storage system be built in Sweden?

Construction has begun on Sweden's largest Battery Energy Storage System (BESS) undertaken by Neoen, an Independent Power Producer and Nidec, a system integrator. The project has been projected to come online in early 2025. Neoen is headquartered in Paris.

What is the Elektra energy storage project?

The Elektra Energy Storage Project, Sweden's largest battery storage project, is now fully operational. Located in Landskrona, southern Sweden, the project will provide ancillary services to help balance the grid for Landskrona Energi. RES developed the 20 MW / 20 MWh project along with SCR, as well as provided construction management services.

Why should you invest in energy storage systems in Sweden?

Our energy storage systems are engineered to ensure high system efficiency and availability for grid services and electricity trading. We aim to deploy over 200MWh of storage capacity in Sweden soon, laying the foundation for further investment and partnerships.

What is Uppsala's battery storage project?

What's unique about this project is that it can support both Uppsala's electricity grid capacity as a service for Vattenfall Eldistribution, and help Svenska Kraftnät (the Swedish power grid authority) in its role to balance the

frequency in Sweden. The battery storage will have a delivery capacity of 5 MW and about 20 MWh – e.g. 4 MW in 5 hours.

Is Neoen launching a record-breaking battery project in Sweden?

Laetitia Prot, Managing Director of Neoen Sweden, said: “We are delighted to be launching the construction of another record-breaking battery project in Sweden. I would like to thank in particular the distribution system operator E.ON and local stakeholders for their active support.
