Sudan outdoor power supply specifications

Overview

How much electricity does Sudan use?

It is estimated that the total installed generation power capacity in Sudan in 2013 amounted to 2,533 MW, with about 70% of the electricity being consumed in the Khartoum area. Domestic power consumption dominates the market, with approximately 65% of electricity consumption being attributable to the sector.

Who owns electricity in Sudan?

Sudan's power utility is the state-owned National Electricity Corporation of Sudan (NEC). Two electric power stations have been inaugurated in June 2004 and they are estimated to have a combined capacity of 330 MW, two facilities that would participate in the supply of power, The El Jaili Power project is a.

Does Sudan have a problem with electricity supply?

Sudan is currently facing a major problem with electricity supply. According to the report "Tracking SDG 7: The Energy Progress Report (2021)", only 54% of the population in Sudan have access to electricity; this indicates more than 20 million people aren't connected to the national electricity grid.

What is the difference between Sudan and South Sudan electrical power sector?

Comparing Sudan and South Sudan Electrical power Sector: Table 2: Sudan vs. South Sudan electrical power Sector

	Sudan	South Sudan
Electricity Production	7.193 billion KWh (2010 est.)	881.3 million KWh (2010 est.)
Electricity Consumption	5.665 billion KWh	

Where does Sudan's electricity come from?

Most of Sudan's electricity generation comes from hydropower, and more than half of the Eastern African region's total oil-based capacity is located in the country. Sudan is also contemplating scaling up projects on solar power in the

coming years.

What are the challenges faced by South Sudan's electricity sector?

struggles and challenges, with Sudan's electrical power sector is subject to poor infrastructure, frequent power cut off and faces other sort of challenges. On the other hand, South Sudan has a very hard situation as only 1% of South Sudan population has access to electricity.
