

## SolarInvert Energy Solutions

# Sukhumi new photovoltaic panels selling price

## Overview

---

Current market quotes for Sukhumi-made panels range \$0.28-\$0.32/Watt for bulk orders (100kW+). For context: Beyond traditional rooftop installations, three sectors show explosive growth: What's happening in the solar photovoltaic industry?

**On-Demand Webinar** This in-depth webinar explores the dynamic transformations occurring within the global solar photovoltaic (PV) industry. As geopolitical factors, trade policies, and manufacturing strategies evolve, the landscape of solar PV production and distribution is undergoing significant change.

What is changing in the solar PV industry?

This in-depth webinar explores the dynamic transformations occurring within the global solar photovoltaic (PV) industry. As geopolitical factors, trade policies, and manufacturing strategies evolve, the landscape of solar PV production and distribution is undergoing significant change. [WATCH IT NOW >](#).

Will market-based electricity pricing affect new solar projects in 2025?

Under this policy, new grid-connected solar projects will adopt market-based electricity pricing from June 1, potentially leading to a sudden drop in domestic module demand and lower prices in the second half of 2025.

How much does non Xinjiang polysilicon cost?

Currently, non-Xinjiang polysilicon with traceability data generally carries a quoted premium of RMB 3-5/kg. Polysilicon prices in dollar terms are prices for polysilicon with non-China origins in dollar terms, not translated from RMB prices.

Will module prices rise in 2026?

Meanwhile, first-quarter 2026 prices climbed 3.61% to \$0.086/W, with higher

price quotes ranging from \$0.083 to \$0.090/W. Market expectations on future module price trends remain divided. Some sources anticipate a continued price increase through the second half of 2025 into early 2026, driven by upstream supply cuts and weak module margins.
