

SolarInvert Energy Solutions

Tesvolt energy storage battery in Johannesburg South Africa

✓ 50KW/100KWH

✓ HIGHER POWER OUTPUT
IN OFF-GRID MODE

✓ CONVENIENT OPERATION
& MAINTENANCE

✓ PRE-WIRED

Overview

What is tesvolt energy storage system?

State-of-the-art prismatic lithium battery cells from Samsung SDI combined with our patented and TÜV-certified Active Battery Optimizer smart cell control system form the core of our storage systems. TESVOLT energy storage systems are the economical choice for the most demanding applications.

What type of battery storage system does tesvolt offer?

TESVOLT AG produces battery storage systems that cover all areas in the commercial and industrial segment: from 10 kWh to 20 MWh capacity, whether connected to high-voltage or low-voltage, on-grid or off-grid, in combination with solar, wind, water or combined heat and power.

Why should you choose tesvolt energy storage systems?

TESVOLT energy storage systems are the economical choice for the most demanding applications. Made in Germany, in Europe's first ever gigafactory for stationary battery storage systems, in Lutherstadt Wittenberg. Quality, performance, and optimum interplay between the individual components set our storage systems apart from the rest.

What is tesvolt energy?

TESVOLT ENERGY complements our advanced battery storage technology with intelligent data analysis and a flexible trading strategy to maximize your revenues. TESVOLT Projects is our team for large storage projects for municipal utilities.

What services does tesvolt offer?

We offer comprehensive service to installers and project developers via the TESVOLT Partner Portal – from planning support to simple installation and after-sales support. Reduced to the maximum, the storage systems of our E series offer the highest energy density with excellent value for money.

What is the largest battery energy storage system in Africa?

Unveiled in 2023, thanks to \$195 million from the International Bank for Reconstruction and Development (IBRD) and \$220 million from AfDB, this flagship project represents the largest battery energy storage system (BESS) on the African continent.
