Overview

Who makes staticon power supplies?

Staticon Ltd., headquartered in Scarborough, Ontario, is an established manufacturer of industrial/utility station power supply equipment since 1964. The company has been producing Rectifiers, DC UPS Systems, Battery Chargers, Inverters, AC Line Conditioners, AC Transfer Switches, and AC UPS Systems since its inception.

What is an uninterruptible power supply system?

An uninterruptible power supply system is an essential component for providing reliable backup power to ensure the continuous operation of critical systems during power interruptions. In industrial uninterruptible power systems, downtime can result in costly disruptions, equipment damage, and safety hazards.

How is ups reshaping the power industry?

As energy consumption grows, advanced UPS have features for energy management and automated diagnostics. This shift is reshaping how organizations approach their power solutions, making knowledge on UPS systems even more significant. "The UPS is not just a device; it is a critical component of a reliable power strategy."

Do uninterrupted power supply systems preserve power stability?

From the selection process to the consideration of ongoing maintenance, it is imperative that users are well-educated on how these systems work and the benefits they provide. Explore the critical role of Uninterrupted Power Supply (UPS) systems in preserving power stability ↵.

Why should you install a power plant ups in an 811 call center?

Power plant UPS keep operations up while a UPS installed in an 811 call center can help keep lines open so utility lines aren't damaged by misinformed

digging. Whatever point in your power distribution needs support, Mitsubishi Electric can help.

What auxiliary equipment does a substation use?

Each substation employs numerous auxiliary equipment including transformers, circuit breakers, switchgear, relays, and SCADA systems performing a range of tasks depending on the locale's specific needs. With UPS installations in plants and substations, you can guard against downtime throughout your entire infrastructure.
