# The first new energy storage project

## Overview

---

Tesla began construction of the Shanghai Megafactory on May 23, 2024, its first energy storage project outside of the US. Where is Tesla's first energy storage Gigafactory?

This photo shows a commercial energy-storage system at US carmaker Tesla's gigafactory in Shanghai, Feb 11, 2025. [Photo/Xinhua] As Tesla's first energy storage gigafactory outside the United States, the new Lin-gang plant only took nine months from groundbreaking, which took place in May 2024, to official operation.

Where is Tesla's new energy storage megafactory located?

Tesla's new energy storage Megafactory in Lin-gang Special Area – a part of the China (Shanghai) Pilot Free Trade Zone – went into operation on Feb 11, with the factory's first Megapack battery system rolling off the production line.

How much does Tesla's Energy Storage project cost?

Covering about 200,000 square meters, the new energy storage project attracts a total investment of 1.45 billion yuan (\$200 million). Up to 10,000 Megapack units are scheduled to be produced here annually. This photo shows a commercial energy-storage system at US carmaker Tesla's gigafactory in Shanghai, Feb 11, 2025. Did Tesla ship a Megapack energy storage system to Australia?

An aerial view of the Tesla Shanghai Megafactory. [Photo/Shanghai Observer] US electric vehicle maker Tesla shipped Megapack energy storage systems from its Megafactory in Shanghai's Lin-gang Special Area to Australia on March 21, according to the company.

How long did it take Tesla to build a megafactory?

It took the American company seven months to finish the construction of this

factory. Its trial production kicked off in late 2024. This plant is the first Tesla's energy storage project outside the United States. Tesla launched the construction of the Megafactory plant in May 2024.

When does Tesla start building a megafactory?

Tesla began construction of the Shanghai Megafactory on May 23, 2024, its first energy storage project outside of the US. The Megafactory will begin capacity ramp-up in the first quarter and is expected to help Tesla improve its supply of energy storage products.
