Transformer breaker in China in Us

Overview

Are Chinese power transformers a threat to America's critical infrastructure?

America's critical infrastructure faces an unprecedented threat, and it's already installed in hundreds of locations across the nation. Recent investigations confirm that Chinese-manufactured power transformers—essential components of our electrical grid—have been discovered with hidden capabilities allowing remote shutdown from overseas.

Are Chinese-manufactured power transformers allowing remote shutdown from overseas?

Recent investigations confirm that Chinese-manufactured power transformers—essential components of our electrical grid—have been discovered with hidden capabilities allowing remote shutdown from overseas. In summer 2019, federal authorities seized a massive 500,000-pound Chinese transformer at the Port of Houston.

How many Chinese transformers are in America's power grid?

The consequences are concerning: at the moment of the initial executive order, approximately 300 Chinese-made transformers were already operating in America's power grid. Today, that number has surged to nearly 500. These aren't ordinary components.

What happened to a 500,000 pound Chinese transformer?

In summer 2019, federal authorities seized a massive 500,000-pound Chinese transformer at the Port of Houston. Rather than delivering it to its intended Colorado substation, officials diverted it under escort to Sandia National Laboratories for examination.

Who are the best transformer manufacturers around the world?

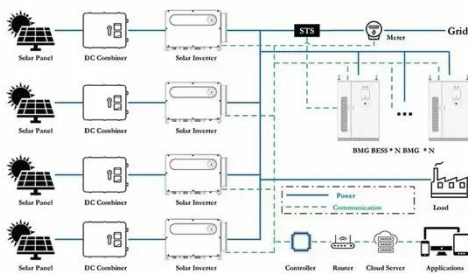

Below are the company summaries and information of Transformer Manufacturers around the world. General Electric is widely recognized as a

leading transformer manufacturer in the United States and throughout the world.

Who makes transformers?

As an industry leader in high voltage, network, distribution, auxiliary, substation, industrial, and instrument transformers, as well as current and capacitive transformers, the company produces a diverse range of products. German multinational Siemens leads the transformers manufacturing industry in Europe.
