

## SolarInvert Energy Solutions

# Ukrainian household energy storage battery company

## Overview

---

DTEK, Ukraine's biggest private energy company, has begun final commissioning of the country's largest battery energy storage project, the company announced on July 10 at the Ukraine Recovery Conference (URC) in Rome. Why is battery storage important in Ukraine?

“Battery storage is a critical element in Ukraine’s vision to build a decentralised energy system that reduces our emissions and enhances our energy security,” commented DTEK CEO Maxim Timchenko. Have you read?

“The partnership with Fluence further signals our commitment to leading the way in battery storage, both in Ukraine and across Europe.

How much will Ukraine invest in a battery-based energy storage project?

The project, with an investment of €140 million (\$143 million), will lead to the delivery of Ukraine’s first large-scale battery-based energy storage portfolio and the provision of 400MWh of dispatchable power – declared enough to supply short term power for 600,000 homes.

How many energy storage plants will Ukraine have?

Said to mark a significant step towards enhancing the country’s energy independence, stabilising power supply and accelerating its transition to renewable energy, the project should deliver six energy storage plants located at sites across Ukraine, with capacities ranging from 20MW to 50MW and totalling 200MW.

Which Ukrainian energy company has selected fluence energy?

Ukrainian energy company DTEK has selected Fluence Energy to deliver 200MW of advanced energy storage systems to be installed at six sites across the country.
