

SolarInvert Energy Solutions

Uninterruptible power supply company for communication base stations

Overview

What is a military uninterruptible power supply UPS?

Military Uninterruptible Power Supply UPS. The PowergridM Military UPS design is based on the concept of modularity and establishes a common set of power components that can be configured and re-configured to meet the growing and ever changing demands of deployable systems.

What is ups & how does it work?

Our UPS for internet, phone and other communications applications deliver the elevated telecom backup power that complex systems require, within a small footprint. Emergency call centers can't afford a break in communication. When connectivity is required to ensure the safety and security of others, uptime can be a matter of life and death.

Does Mitsubishi Electric offer a Telecom UPS?

Enter Mitsubishi Electric's telecom UPS options. Our UPS for internet, phone and other communications applications deliver the elevated telecom backup power that complex systems require, within a small footprint. Emergency call centers can't afford a break in communication.
