

## SolarInvert Energy Solutions

# Uzbekistan home energy storage

✓ 50KW/100KWH

✓ HIGHER POWER OUTPUT  
IN OFF-GRID MODE

✓ CONVENIENT OPERATION  
& MAINTENANCE

✓ PRE-WIRED

## Overview

---

Is Uzbekistan ready for a grid-scale battery energy storage project?

Uzbekistan is in line for its first grid-scale battery energy storage project as it seeks to stabilize and strengthen its existing electricity grids and ramp up the uptake of renewable energy.

Will the World Bank support a solar photovoltaic plant in Uzbekistan?

Image for representation purposes only. The World Bank on Tuesday (May 21) announced that it will support a 250-megawatt (MW) solar photovoltaic plant with a 63-MW battery energy storage system (BESS) in Uzbekistan -- Central Asia's first renewable energy facility with a utility-scale battery storage component.

Who owns Nur Bukhara solar power plant & battery energy storage?

The Nur Bukhara greenfield solar power plant and battery energy storage (BESS) will be implemented through Nur Bukhara Solar PV LLC FE owned by Masdar. The project company will be responsible for developing, financing, building, owning, operating, and maintaining the solar plant and BESS.

What is a power purchase agreement between Uzbekistan & national electric grid?

As part of the agreement, it will sell electricity to the state-owned National Electric Grid of Uzbekistan JSC under a 25-year Power Purchase Agreement for the project, including a 10-year operating term for the BESS component, signed by these two entities.

Why is Uzbekistan partnering with IFC?

“Our growing partnership with Uzbekistan in renewables is bringing clean and sustainable energy to the population at competitive prices,” said Wiebke Schloemer, IFC Director for Türkiye and Central Asia.
