Victoria Outdoor Power Assembly Lithium

**FLEXIBLE SETTING OF
MULTIPLE WORKING MODES**

Overview

What is the Victorian Big lithium-ion battery project?

Scheduled to enter service by the end of 2021, the Victorian Big lithium-ion battery project will store cheap solar and wind energy and can power approximately one million Victorian homes for 30 minutes. It will support peak load on Victoria's electricity transmission network while helping to prevent grid blackouts.

Will Australia's largest lithium-ion battery boost power supply reliability?

Australia's largest lithium-ion battery will boost the reliability of our power supply. Victoria has installed and activated Australia's largest lithium-ion battery at the Moorabool Terminal Station, just outside Geelong. The Victorian Big Battery (VBB) modernises the state's electricity grid and boosts the reliability of power supply.

Where is Australia's largest lithium-ion battery located?

Victoria has installed and activated Australia's largest lithium-ion battery at the Moorabool Terminal Station, just outside Geelong. The Victorian Big Battery (VBB) modernises the state's electricity grid and boosts the reliability of power supply. The 300 Megawatt (MW) battery is owned and operated by renewable energy specialist Neoen.

What is a Victorian big battery?

The Victorian Big Battery (VBB) modernises the state's electricity grid and boosts the reliability of power supply. The 300 Megawatt (MW) battery is owned and operated by renewable energy specialist Neoen. It can store enough energy to power more than one million Victorian homes for 30 minutes.

Who owns the Victorian big battery?

The 300 Megawatt (MW) battery is owned and operated by renewable energy

specialist Neoen. It can store enough energy to power more than one million Victorian homes for 30 minutes. The Victorian Big Battery is one of the largest batteries in the world.

What is the Victorian big battery storage facility?

The Victorian Big battery storage facility also houses two 180MVA 220/33kV power transformers that were energised in July 2021. The electricity from the Victorian Big battery energy storage facility will be transmitted through a 220kV power line connecting AusNet's Moorabool electrical substation.
