Vilnius sine wave inverter installation

Overview

Which company makes pure sine wave inverters?

Sensata Technologies is the company that makes pure sine wave inverters, under the Magnum-Dimensions brand. The CSW Series includes the CSW412, CSW1012 and CSW2012 inverters.

What is a CSW series inverter?

The CSW Series includes the CSW412, CSW1012, and CSW2012 inverters, which are 'pure' sine wave inverters under the Magnum-Dimensions brand from Sensata Technologies. They are designed to be powerful and simple to operate, and will provide you with reliable AC power for trouble-free use.

How do I mount the CSW series inverter?

To mount the CSW Series inverter, you can place it on or underneath a horizontal surface (shelf or table) or on a vertical surface (wall or bulkhead) with the DC terminals facing left or right. When mounted indoors.

Where should an inverter be installed?

According to the ME-RC Remote Installation and Operation Guide, the inverter should be installed and mounted in a clean and dry location. It should not be installed in an area that allows dust, fumes, insects, or rodents to enter or block the inverter's ventilation openings.

What happens if the CSW series inverter fails?

If the CSW Series inverter in the ME-RC Remote fails, it can reasonably be expected to cause the failure of that life-support device or system, or to affect the safety or effectiveness of that device or system. This may potentially endanger the health of the user or other persons.

Are Intertek inverters safe to use?

Intertek inverters are certified to product safety standards by Intertek Testing Services (ETL), a Nationally Recognized Testing Laboratory (NRTL).
