What are the Georgia outdoor power standards

Overview

What are the Georgia state minimum standard codes for construction?

The Board of Community Affairs hereby adopts the following code editions and amendments as the Georgia State Minimum Standard Codes for Construction: ONE AND TWO FAMILY DWELLING CODE (International Residential Code for One and Two Family Dwellings).

What is the Georgia state minimum standard energy code?

The Georgia State Minimum Standard Energy Code shall be used for efficiency and coefficient of performance ratings of equipment. APPENDICES: Appendices are not enforceable unless they are specifically referenced in the body of the code or adopted by the Department of Community Affairs or the authority having jurisdiction.

What is the Georgia State Energy Code for buildings?

(b) Change all references from the International Energy Conservation Code to the Georgia State Energy Code for Buildings. The Georgia State Energy Code for Buildings shall be used for efficiency and coefficient of performance rating of mechanical equipment.

What are the minimum requirements for fire sprinkler systems in Georgia?

903.1 General. The State's minimum requirements for fire sprinkler systems shall be established by the Life Safety Code. Areas not specifically addressed by the Life Safety Code and which are addressed by the Georgia State Minimum Standard Building Code, the Standard Building Code shall be used as a supplement.

What are Georgia's minimum requirements for existing buildings?

The State's minimum requirements for existing buildings shall be established by the Life Safety Code. Areas not specifically addressed by the Life Safety Code and which are addressed by the Georgia State Minimum

Standard Building Code, the Building Code shall be used as a supplement. (Effective January 1, 2002) SECTION 3402.

What are Georgia's minimum requirements for natural gas systems?

(a) The State's minimum requirements for natural gas systems shall be established by the National Fuel Gas Code (NFPA 54). Areas not specifically addressed by the NFPA 54 and which are addressed by the Georgia State Minimum Standard Gas Code (International Fuel Gas Code), the Gas Code shall be used as the supplement.
