

## SolarInvert Energy Solutions

# What is the largest energy storage power station in Libya

## Overview

---

How many MW of electricity does Libya generate in 2023?

66 Libya Oil Monitor, "GECOL gives update on power plant maintenance," December 4, 2023; Libya Herald, "Libya generates 8,200 MW of electricity for the first time ever: GECOL," March 20, 2023. 67 France24, "Libya lights up after years of power cuts," September 3, 2023.

How much electricity does Libya produce a year?

Libya's electricity generation has declined overall since 2013, and output was an estimated 30 terawatt-hours (TWh) of power generation in 2022.<sup>62</sup> Over a decade of civil war and insufficient maintenance and investment in aging plants and equipment reduced Libya's ability to produce electricity.

What fuel does Libya use?

Libya fueled its electricity generation with natural gas (71%) and oil (29%) in 2022.<sup>63</sup> Diesel and fuel oil accounted for most of the petroleum used in power plants, although the Ubari power plant at the Sharara oil field uses crude oil as a fuel.

Does TotalEnergies have a solar project in Libya?

In addition to its recent investment in Libya's oil and natural gas sectors, TotalEnergies intends to develop 500 MW of solar power projects in the country.<sup>72</sup> Libya has also discussed solar power projects with Repsol, PowerChina, Petro Techna (Canada), and others.<sup>73</sup>

What is the potential of solar power in Libya?

Regarding concentrated solar power (CSP), the technical potential in Libya is huge. It has been estimated at 140,000 TWh/year which is equivalent to 27,000 GW of capacity at 60% load factor. In 1983, 10 systems of solar heaters were installed. Till 2006, an additional 2000 had been deployed. ► Go to Top Libya's potential of biomass is limited.

How many solar systems are installed in Libya?

By 2006, the total number of remote systems installed by General Electric company of Libya (GECOL) was 340. They had a total capacity of 220 kWp. The Center of Solar Energy Studies (CSES) and the Saharan Center also installed 150 with a total power of 125 KWp.
