What is ASTAE doing in Funafuti?

In addition, ASTAE is supporting the design and installation of a satellite-based communications system in Funafuti and the outer islands that will enable the TEC—with continued support—to remotely monitor, control, and improve the operation and maintenance of its power systems.

What is the largest islet of Funafuti?

the largest islet of Funafuti is Fongafale, there are four villages of which Vaiaku is that where the government is located. Funafuti has a population of about 4,500 inhabitants. Official language is Tuvaluan and English.

How does a base station RF work?

The base station's RF circuitry is housed in a small outdoor module known as a remote radio head (RRH) or remote radio unit (RRU). RRH performs all RF functions such as transmit and receive functionality, filtering and amplification. It also has analog-to-digital or digital to analog and digital

upconverters.
