**Where is the address of the
Ulaanbaatar communication
network base station**

Overview

Where is Ulaanbaatar railway station?

Ulaanbaatar Railway Station is located in the southwest of Ulaanbaatar, the capital of Mongolia. Built in 1949 by the Soviets, this station is now the biggest station and the most important transportation hub in Mongolia. There are domestic trains linking Ulaanbaatar station with other cities in Mongolia.

Where is Ulaanbaatar located?

The city is located in north central Mongolia at an elevation of about 1,300 meters (4,300 feet) in a valley on the Tuul River. Ulaanbaatar is the political, commercial, cultural, and scientific center of Mongolia and an important financial center of Central Asia. It is a major transportation hub.

Why do we support the construction of Ulaanbaatar's first metro?

We support the construction of Ulaanbaatar's first metro, and focus on transparently communicating the progress of the project, traffic coordination, and the positive impact it will have on citizens. We respect citizens' opinions, work together, build trust, and strive to minimize inconvenience.

What is Ulaanbaatar Metro PMC?

Ulaanbaatar Metro PMC is an organization that aims to improve the quality of life of citizens and contribute to sustainable development. We support the construction of Ulaanbaatar's first metro, and focus on transparently communicating the progress of the project, traffic coordination, and the positive impact it will have on citizens.

When was Ulaanbaatar founded?

The city was founded in 1639 as a nomadic Buddhist monastic center, changed location 28 times, and finally settled on its present site in 1778. Province: Ulaanbaatar. Population: ~ 1,700,000. Postal code: 210. Area code: 976 (0)11.

Why is Ulaanbaatar the heart of Mongolia?

The city of Ulaanbaatar, an important city that serves as the “heart of Mongolia” has experienced rapid urbanization with 49.5% of Mongolia's population and 56% of registered vehicles concentrated there. As a result, severe traffic congestion and air pollution that is fatal to citizens' health are worsening.
