Overview

What type of electrical outlets are used in Cook Islands?

In Cook Islands electrical outlets and plugs of type I are used (see images). You can check if these are the same as in your country with the tool at the top of this page. The voltage used in Cook Islands is 240V with a frequency of 50Hz.

Can a universal power adapter fit a Cook Islands outlet?

Universal power adapters usually come with multiple plug types and can be adjusted to fit Cook Islands outlets and many others. If your devices are not compatible with the voltage in your destination country, a voltage converter or transformer will also be necessary to convert the voltage to the appropriate range for your devices.

Do you need a travel adapter for Cook Islands electrical outlets?

Well, the Cook Islands have Type I (i) power plugs with 240V AC 50Hz, so if your appliances don't fit the electrical outlets and/or require a different voltage or frequency, then you're going to need a travel adapter and maybe even a converter. Makes sense?

If not, this in-depth guide on the Cook Islands electrical outlet will make it so.

What voltage is used in Cook Islands?

Voltage used in Cook Islands is 240V and the electrical frequency is 50Hz. (more details after you choose where are you plugs from.) Rainforest in Cook Islands Select your departure country for a detailed report of adapters, plugs and handling advise for electronics abroad. Are your plugs from United States of America?

.

Can a North American plug be used in Cook Islands?

North Americans device plugs will not work with the outlet types in Cook Islands. Also, the voltage in Cook Islands is different from North American voltages. Can Europeans use Electronics in Cook Islands without an adapter?

Europeans do not need a transformer when traveling to Cook Islands. The voltage in Cook Islands is the same as in Europe.

Do I need an adapter to use a charger in Cook Islands?

Chargers for iPhones, Android phones and other smartphones or cell phones are usually dual voltage, so you can use them all over the world. However, it is possible you'll need an adapter to plug the charger into a Cook Islands outlet. Cook Islands uses electrical outlets and power plugs of type I (see images).
