

SolarInvert Energy Solutions

Wireless outdoor base station manufacturing

Overview

Is TP-Link a good wireless base station?

TP-LINK's 5GHz 300Mbps * Outdoor Wireless Base Station is specifically designed to provide an effective solution for outdoor wireless networking applications. With its centralized management platform and high degree of flexibility, it is the ideal choice for providing point-to-point, point-to-multipoint, and outdoor Wi-Fi coverage.

What makes the Pharos series a good base station?

To maximize performance and stabilize long distance wireless transmission, the Pharos Series is built with Qualcomm Atheros enterprise level chipsets, high gain-antennas, and high-power amplifiers. In addition to excellent internal components, Pharos Series Base Stations also feature specially designed, weatherproof enclosures and PoE capability.

Can the wbs510 be paired with a TP-Link dish antenna?

Where long- distance wireless data transmission is necessary, the WBS510 can be paired with a TP-LINK dish antenna, allowing it to transfer data over distances of up to 50 km *. Pharos Base Stations works seamlessly with TP-LINK dish and sector antennas to provide efficient PtP and PtMP data transmission.

Who makes standard products antennas?

We are the Standard Products sales branch of Myers Engineering International, Inc. a Florida licensed Professional Engineering firm specializing in Antennas, Electromagnetics and Communications Electronics. All antennas featured in this catalog are made in the USA by us.
