

## SolarInvert Energy Solutions

# World s largest micro inverter

## Overview

---

Who makes the best microinverter?

NEP in the top 10 micro inverter manufacturers in the world have shipped market leading microinverter and rapid shutdown MLPE products to customers in more than 35 countries. NEP develop cutting-edge clean energy technology and state-of-the-art solar microinverters. Microinverters to save up to 40% on hardware costs.

Is there a gap between our company and the world's top 5 inverter manufacturers?

There is a certain gap between our company and the world's top five inverter manufacturers in terms of technical strength, market share, product quality and service, internationalization, brand influence and market recognition.

What is the global solar microinverter market value?

The global solar microinverter market reached a value of US\$ 231 Million in 2021. Solar microinverters refer to electronic devices used in photovoltaics to convert the direct current (DC) generated by solar panels into alternating current (AC).

What is micro inverter technology?

With its micro-inverter technology, small string inverter technology and modular power electronic equipment, it has made great achievements in the European and American household markets. Currently, North America accounts for about 70% of the global micro inverter market.

What is a solar microinverter?

Solar microinverters refer to electronic devices used in photovoltaics to convert the direct current (DC) generated by solar panels into alternating current (AC). They function in a parallel circuit and can separate power output from each panel while converting it into grid voltage.

What are the major business segments of micro inverter manufacturers?

At present, it has three major business segments: inverter business, environmental electrical appliances business represented by dehumidifiers and heat exchanger business. Now is one of the top 10 micro inverter manufacturers in the world. The traditional business has solidified the foundation, and the inverter business has grown vigorously.
