Overview

Who makes solar panels in Armenia?

Solaron is the first manufacturer of solar panels in Armenia, which annual production capacity reaches about 60 megawatts. Brand “Solaron” is a registered trademark for products manufactured by Profpanel. In Solaron Company merged a team of highly qualified professionals with many years of experience in the business organization from scratch.

What is Armenia's solar potential?

Armenia's solar potential, according to NASA's data, is one of the highest in the region and makes up 1760-1800 kWh/m² annually. Such conditions are sufficient to ensure a high level of solar energy production and for the recovery of solar station installation costs in 5-7 years.

Who makes Solaron solar panels?

Solaron started its solar panel production activities on June 29, 2016, becoming the first Armenian manufacturer of solar panels. The brand “Solaron” is a registered trademark for products manufactured by Profpanel. Our annual production capacity of solar panels is 60 MW.

Where is Solaron available in Armenia?

Solaron's services are available throughout all regions of Armenia. Solaron is the first manufacturer of solar panels in Armenia, which annual production capacity reaches about 60 megawatts. Brand “Solaron” is a registered trademark for products manufactured by Profpanel.

When is Solaron opening in Armenia?

The official opening of SolarOn, the first solar panels producing factory in Armenia, will take place on June 29 in Yerevan. The company has been operating in test mode since spring and has already implemented a number of projects for installation of solar power stations for industrial and residential

areas.

Where are solar panels made?

SolarOn: solar panels' manufacturing and installation company. The company is located in Arshakunyats ave. 25/1, Yerevan. The factory's production capacity is 10 MW annually, with 50 employees in full production workload.
