

SolarInvert Energy Solutions

Zagreb communication base station inverter grid connection project bidding

Overview

What is the InovGrid project?

The Inovgrid project is testing a new grid architecture in an urban area with Electric vehicles as storage capacity for renewable about 32,000 customers in Portugal. The project is energy resources Finally, projects investigate and expected to: increase the capability to integrate test the viability of using electric vehicle batteries.

Are smart grids evenly distributed across Europe?

Projects in the catalogue are not evenly distributed across Europe. Most of the projects and of the investments are in EU15 countries. Smart Grids are deployed at different pace and not in a homogenous way across the Member States: this could lead to challenges both for trade and cross-border cooperation.

Are power system operators pushing the limits of integrating inverter-based resources?

Abstract: Power system operators around the world are pushing the limits of integrating inverter-based resources (IBRs) to very high levels, approaching 100% instantaneous penetration under certain operating conditions.

What role do Smart Grid projects play in Europe?

Grid projects throughout Europe. To the best of A key role is played by new business models our knowledge, the collected Smart Grid projects and practices, new regulations, as well as more represent the most comprehensive and up-to-intangible elements like consumers' behavioural data inventory in Europe at present.

Where can I find information about smart grid demonstration projects?

EPRI (Electric Power Research Institute) (2010), Methodological Approach for Estimating the Benefits and Costs of Smart Grid Demonstration Projects, EPRI,

January 2010, available at: smartgrid.gov/sites/default/files/pdfs/methodological_approach_for_estimating_the_benefits_and_costs_of_sgdp.pdf, accessed December 2010.

Will eegi and JRC collaborate on a smart grid?

Coordination with other European initiatives on Smart Grids which the Commission expects to launch at the end of 2011. Further revisions of this study aim at closer collaboration with the EEGI. This is important to have clear in mind the common ground between the EEGI and the JRC mapping and keep track of and exchange data and results.
