

## SolarInvert Energy Solutions

# 2400w photovoltaic inverter

## Overview

---

What is a 2400W solar inverter?

□2400W Solar Inverter□2400W pure sine wave inverter converts 24V DC to 110V/120V AC and includes a 50A PWM charge controller. With advanced SPWM technology and dual closed-loop control, it offers up to 95% charging efficiency. The pure sine wave output ensures high safety, protecting your home's electrical system.

What is a 120V AC 5% solar inverter?

AC Voltage Regulation (Batt. Mode): 120V AC  $\pm$  5% Converts the sun's direct current (DC) electricity into usable alternating current (AC) for your appliances and stores excess solar power for later use with this hybrid solar inverter.

When will vevor solar inverters be restocked?

These items are expected to be restocked on March 28th. VEVOR Hybrid Solar Inverter 3KVA 2400W with built-in 50A PWM solar charge controller, LCD settings, and full protection, ideal for home or office off-grid use.

How does a vevor solar inverter work?

To provide you with a continual power supply, the VEVOR solar inverter features pure sine wave. A sine wave is an advanced form of electricity that stays consistent to help your devices work better and reduce the chance of any weird electrical problems or interferences. The VEVOR hybrid solar inverter also features a cooling fan.

What is a multi-function hybrid inverter?

Multi-Function Hybrid Inverter: This is an off grid multi-function inverter/charger, combining the functions of an inverter, solar charger, and battery charger to offer uninterruptible power support with portable size. Equipped with PWM solar charge controller to maximize and regulate DC power from the solar array to charge the battery bank.

How many charging modes does a 24V inverter have?

□Four Charging Modes and Three Output Modes□ The 24V inverter offers four selectable charging modes: solar, utility priority, solar priority, and utility hybrid charging. Additionally, users can choose from three output modes: PV priority, utility priority, and inverter priority, accommodating various application needs
