500MW of solar in Stockholm

Overview

Swedish solar developer Svea Solar is planning to build eight new solar parks in Sweden with a total capacity of approximately 500 MW. How many solar parks will Svea solar build in Sweden?

Svea Solar has entered into several land agreements with one of the world's largest private forest owners to develop eight new solar parks in Sweden with a total capacity around 500 MW. Swedish solar developer Svea Solar is planning to build eight new solar parks in Sweden with a total capacity of approximately 500 MW.

Where are solar parks built in Sweden?

Svea Solar, which has built the majority of solar parks in Sweden, has entered into several land agreements with Stora Enso, one of the largest private forest owners in the world. Eight new solar parks will be built on Stora Enso's land. The solar parks will mainly be located in central Sweden, but also in southern Norrland.

Will Svea solar build a solar park in Ludvika?

Svea Solar has already built the Skakelbacken solar park on Stora Enso's land in Ludvika, with a capacity of 6 MW. Skakelbacken will be operational in April. Svea Solar, which has built the majority of solar parks in Sweden, has entered into several land agreements with Stora Enso, one of the largest private forest owners in the world.

Does Svea solar have a partnership with Stora Enso Oyj?

Swedish solar company Svea Solar has signed deals with Finnish forest industry company Stora Enso Oyj (HEL:STERV) to use some of its lands in Sweden where it plans to install 500 MW of new photovoltaic (PV) parks. Image by: Svea Solar.

How many solar parks will be built on Stora Enso's land?

Eight new solar parks will be built on Stora Enso's land. The solar parks will mainly be located in central Sweden, but also in southern Norrland. The total estimated capacity is approximately 500 MW, comparable to the annual consumption of about 40,000 households or half a nuclear reactor.

When will Svea solar build a solar park?

Construction of the first solar park in the deal is expected to begin next year, with most projects included in the plan scheduled for completion by 2030. Svea Solar added that a 6 MW project on Stora Enso's land in Ludvika, central Sweden, is due to become operational this April. Svea Solar says it has built the majority of Sweden's solar parks.
