What is a solar tile manufacturer?

As a solar tile manufacturer, we specialize in providing innovative solar solutions. Our solar tiles integrate advanced solar cell technology and can replace traditional tiles as part of a building's roof, generating clean, renewable energy for your home.

What are solar roof tiles?

Solar roof tiles are a fully integrated solar system that powers your home. As a solar tile manufacturer, we offer innovative solutions to meet your solar product needs. Each tile has a seamless design that looks great up-close or from the street, complementing your home's natural aesthetic styling.

What are mitrex solar roof tiles?

Mitrex solar roof tiles are a BIPV technology designed to appear as typical asphalt shingles on residential roofs. They serve the dual purpose of protecting the roof structure while using solar energy to generate electricity. Moreover, they are easy to install and, like ordinary shingles, are built to withstand the weather elements.

What types of solar tiles are available?

Mitrex solar tile varieties include solar roof shingles, solar laminates, modules with integrated PV cells, and transparent laminates. These technologies are generally produced using crystalline or with thin-film solar cells. For more information, consult the table below or contact a member of our solar team.

Where can I buy a STR solar tile roof system?

STR designs, manufactures, and offers products for sale as follows; STR products may be purchased either individually or as an "All in One" Solar Tile Roof system. STR sells Products directly to Licensed Independent Installation Contractors at contractor wholesale rates and or to the general public at retail

rates.

What are SunTegra tiles in-roof solar panels?

SunTegra Tiles are in-roof solar panels that integrate directly into the sloped roof of a home, commercial building, or carport. SunTegra Tiles and accessories offer the perfect combination of aesthetics, performance, and value when used with standard Tiles roofing systems.
