

## SolarInvert Energy Solutions

# Azerbaijan Industrial Energy Storage

## Overview

---

Power plant developer ACWA Power and the government of Azerbaijan have signed an agreement to potentially deploy a battery energy storage system (BESS) in the central Asian country. Will Azerbaijan build the first industrial battery energy storage system?

Azerbaijan is currently conducting the selection of a company for the construction of the first industrial battery energy storage system, Deputy Energy Minister Elnur Soltanov told journalists at the Alley of Honor during the commemoration of National Leader Heydar Aliyev's memory, Trend reports.

Can Azerbaijan adopt energy storage systems?

The BISTP's experience with this pilot project is vital for the adoption of energy storage systems in Azerbaijan. This initiative lays the groundwork for developing similar infrastructure on an industrial scale, aligning with the country's broader renewable energy ambitions.

Is Azerbaijan embracing green energy?

In a significant move towards embracing green energy, Azerbaijan's leading energy company, Azerenerji JSC, has announced a tender for the creation of a 250 MW Battery Energy Storage System (BESS) in Azerbaijan.

Is China a key partner in Azerbaijan's adoption of battery energy storage systems?

China is poised to become a key partner in Azerbaijan's adoption of Battery Energy Storage Systems (BESS) and other advanced energy technologies. During COP29, Azerbaijan's Ministry of Energy signed a Memorandum of Understanding with China Southern Power Grid International (Hong Kong) Co., Ltd and Powerchina Huadong Engineering Corporation Limited.

Are solar energy trends relevant for Azerbaijan?

These trends are highly relevant for Azerbaijan, and during the COP29 climate

conference, the Baku International Sea Trade Port (BISTP) and Malaysia's Tiza Green Energy (a subsidiary of Citaglobal) launched the country's first project integrating solar energy with a Battery Energy Storage System (BESS).

How much energy does Azerbaijan need?

Interested companies have, until 10:00 AM on August 30, 2024, to submit their proposals, with the tender procedure set to take place later the same day. The Ministry of Energy estimates that to successfully integrate 2 GW of "green" energy, Azerbaijan requires a storage capacity of 250 MW.
