Overview

How can Brunei decarbonise the energy sector?

New techniques and technologies will be needed to decarbonise these areas. In 2014, Brunei adopted a strategic plan to achieve 10% share of renewables in the national energy mix by 2035. The plan provides the outline to introduce renewable energy policy and regulatory frameworks and to scale-up market deployment of solar PV.

What is Brunei known for?

Oil and Gas Brunei has been known for its reserves of oil and gas, which has fuelled it's economy for the past 85 years and more. International Affairs International cooperation for energy policies and activities In Country Values Maximize economic spin-offs in the industry Renewable Energy Strengthening sustainable energy efforts Power.

What is Brunei Energy Hub Dermaga Diraja?

The newly launched Brunei Energy Hub Dermaga Diraja stands as a significant tribute to the country's history and serves as an interactive educational centre for the public to learn about the importance of the energy industry to the local economy as well as everyday lives.

Why is oil and gas important in Brunei Darussalam?

Today, over 90 years later, oil and gas continue as a backbone of Brunei Darussalam's economy. The Energy Sector including the oil and gas industry contributes to more than 50 per cent of our country's Gross Domestic Product (GDP).

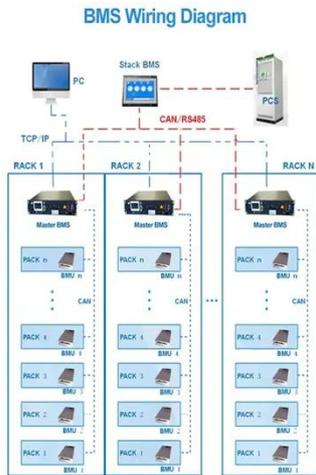

How did BSP achieve its first power plant in Brunei?

The project was achieved by BSP's almost entirely Bruneian team in partnership with international experts. The 3.3 MWp (Megawatts-peak) plant produced its first power on 30th March 2021.

What is Brunei Darussalam known for?

Brunei Darussalam has been blessed with a prosperous oil and gas industry since the first drop of commercial oil which was discovered in 1929 in Seria. Today, over 90 years later, oil and gas continue as a backbone of Brunei Darussalam's economy.
