# Distribution of lithium battery charging stations in Taipei

## Overview

---

Is Taipei a good place to charge an EV?

Taipei, renowned for its technological advancements and eco-consciousness, offers a well-developed network of charging infrastructure, making it a haven for EV enthusiasts. Map of EV Charging Stations in Taipei Map Legend PlugShare uses a color-coded system to convey charging station information: Green: Public charging (Level 1-2, up to 50 kW).

How many EV charging stations are there in Taiwan?

As of the end of last month, Taiwan had 10,838 charging stations, including 7,735 slow chargers and 3,103 fast chargers. Taiwan has 99,980 registered EVs, which translates into 9.2 EVs per public charging station, in line with the EU-recommended ratio of 10 to one, the ministry said.

How much will Taiwan spend on public charging stations in 2023?

On June 13, 2023, Taiwan's Ministry of Transportation and Communications (MOTC) announced plans to accelerate the establishment of public charging stations, allocating a special budget of \$32 million through the Forward-looking Infrastructure Development Program.

How many chargers are there in Taiwan?

After Taipei, Taichung had the most applications for new chargers at 527, followed by Tainan with 483, Kaohsiung with 398, Taoyuan with 391 and New Taipei City with five, ministry data showed. As of the end of last month, Taiwan had 10,838 charging stations, including 7,735 slow chargers and 3,103 fast chargers.

How can Taipei improve EV charging?

Dense charging network. A well-distributed network of charging stations will alleviate range anxiety and enhance convenience. Taipei is aiming to have at least one station per 1 km<sup>2</sup> in urban areas and one station per 5 km<sup>2</sup> in

suburban areas. Fast-charging infrastructure. Rapid charging solutions minimise charging times and encourage EV adoption.

How does PlugShare work in Taipei?

Taipei, renowned for its technological advancements and eco-consciousness, offers a well-developed network of charging infrastructure, making it a haven for EV enthusiasts. PlugShare uses a color-coded system to convey charging station information: Green: Public charging (Level 1-2, up to 50 kW). Orange: Rapid high-power charging (Level 3).
