# Does the government subsidize photovoltaic panels

## Overview

---

Government subsidies are your ticket to financial support from local, state, and federal governments, all aimed at helping you jump on the solar panel and clean energy bandwagon. Does governmental subsidy support China PV companies?

Although governmental subsidy strongly supports the China PV companies, few of them have competitiveness in the global market. This dramatically conflictive phenomenon attracted many researchers' attentions in recent years.

What are the negative effects of governmental subsidies on PV industry?

At the same time, negative effects, like serious oversupply of PV industry, were brought about by these large scale governmental subsidies. Although governmental subsidy strongly supports the China PV companies, few of them have competitiveness in the global market.

Which countries subsidize solar power plants?

Low and Abrahamson (1997). As the same as Europe (EU), the United States of America (USA) and Japan, China launched a national solar subsidy program in June 2009, named Golden Sun Program, which subsidized 50% of investment for solar power plants, with a total amount of 10 billion RMB (1.6 billion USD).

Do Chinese regulations affect the number of photovoltaic (PV) installations?

Abstract: The Chinese Government has issued numerous regulations that significantly affect the number of photovoltaic (PV) installations in the country and the subsidies for their use.

What is solar photovoltaic (PV)?

Solar photovoltaic (PV), which converts the sunlight directly into electricity by means of silicon-based material, is an important utilization technology of solar

power. Solar PV power generation is clean, safe, convenient, and with high efficiency.

Do governmental subsidies aggravate the overcapacity of PV supply?

Finally, a conclusion was drawn that the governmental subsidies at Early Exploratory Stage can maximize the social and economic effects, suggesting the best entry occasion, and subsidies at Intermediate Stage and Mature Stage have little effects on its turnover and aggravate the overcapacity of PV supply, suggesting a suitable exit occasion. 1.
