

SolarInvert Energy Solutions

Fimer Solar Inverter

Overview

Who sells Fimer solar inverters?

SunAP is the official and authorized distributor for FIMER (earlier ABB) solar inverters of grid tied / ongrid type string or central inverters alongwith hybrid type with integrated Lithium battery models, and Electric Vehicle charging stations.

What is a Fimer solar inverter?

FIMER solar inverters are equipped with advanced and innovative technologies, ensuring efficient energy conversion and optimal system performance. The inverters feature a compact and lightweight design, optimizing space and making them suitable for a variety of installation environments.

Does Fimer make a string inverter?

FIMER offers string and hybrid inverters for the U.S. solar market. It also manufactures accompanying at-home EV chargers, but they are not available in America. FIMER's UNO-DM string inverter comes with a wide range of capacities; your solar installer will be able to determine the right size for your specific solar system.

Why should you choose Fimer solar inverters?

To provide the best solar inverters to the people, FIMER is making a mark in the solar industry. Tailored to suit Australia's distinctive energy environment, FIMER solar inverters feature both simplicity and advanced technology, ensuring optimal utilization of the energy captured by your solar panels.

Who are Fimer solar inverters & E-Mobility Systems?

Fimer specialise in Solar Inverters and E-Mobility Systems and offer a full range of inverter and EV charging solutions for residential, commercial & industrial (C&I) and utility-scale projects. Delivering over 11 GW of capacity a

year and with over 46 GW in installed capacity, FIMER is the fourth largest solar inverter supplier in the world.

Who is Fimer solar & power equipment?

A company taking this approach to residential solar and power equipment is FIMER. The Italy-based business sells inverters and solar batteries in the U.S. With its growing portfolio of products, it is helping households reduce reliance on harmful fossil fuels and transition to a renewable future.
