

SolarInvert Energy Solutions

Inverter gci50kw

Overview

Why should you choose a 25-50kw string inverter?

Whose operation is so quiet, like a whisper, thus creating a more comfortable and friendly working and living environment. 25-50kW three phase series string inverter adopt 4 MPPT design to provide a more flexible configuration scheme with a smaller environmental impact rate and higher generation efficiency.

What is a high power 50kW grid tie solar inverter?

High power 50kW grid tie solar inverter converts 200-820V DC to 3 phase 380 volt, 460 volt and feed the power into the grid, high reliability due to perfect protection function, powerful communication interfaces, easy operation and installation.

What is s5-gc(25-50)K three-phase series string inverter?

S5-GC (25-50)K three-phase series string inverter adopt 3/4 MPPT design to provide a more flexible configuration scheme with a smaller environmental impact rate and higher generation efficiency. Whose operation is so quiet, like a whisper, thus creating a more comfortable and friendly working and living environment.

What is a 3 phase grid tie inverter?

Pure sine wave three phase 50kW grid tie inverter without transformer for on grid solar system. 3 phase grid tie inverter has wide input voltage range of 200-820V and wide output range of 280V-480V, max DC input voltage to 850V, multi-language LCD display, 2 way MPPT, MPPT efficiency more than 99%.

What is the cooling method of 50 kW on grid inverter?

The cooling method of 50 kw on grid inverter is cooling fan. And strong IP65 protection, completed sealed cover of 3 phase grid connected inverter

suitable for harsh environment.

How many kilowatts is a grid tie inverter?

With a power capacity of 50 kilowatts, this three phase grid connected inverter is typically used for medium to large-scale solar installations, such as in commercial buildings, industrial facilities, or large residential complexes. LCD display, convenient for the user to monitor main parameters of grid tie inverter.
