

## SolarInvert Energy Solutions

# Lithium battery base station battery

## Overview

---

What is a lithium based battery?

A lithium-based battery can come in many forms, with the most notable variants including lithium iron phosphate, lithium cobalt oxide, lithium manganese oxide, and lithium nickel manganese cobalt oxide. These batteries contain small power cells, each consisting of a positive electrode (cathode), a negative electrode (anode), and an electrolyte.

Why should you buy a lithium Network Power Battery?

Leoch manufactures a wide range of Lithium Network Power Batteries to cover any telecommunications requirement. Aiming to deliver an unprecedented value to your needs, these solutions offer exceptional performance, long life, high energy density, ease of installation, and hassle-free operation for a broad spectrum of telecom applications.

Does Leoch manufacture lithium batteries?

Leoch manufactures premium Lithium batteries to cover any renewable energy requirement. Aiming to deliver a robust product portfolio that will cover your requirements in the long term, we target to offer unprecedented value to your needs.
