

SolarInvert Energy Solutions

Mobile power box for overseas projects

LPW48V100H
48.0V or 51.2V

Overview

What are mobile & containerized substations?

Versatile Mobile & Containerized Substations for Rapid Deployment. E-Houses: Compact, Modular, and Efficient Power Solutions for Any Terrain. Mobile Substations are fully integrated, transportable power solutions mounted on trailers or skids, designed for temporary or emergency power supply.

What is a mobile substation / E-House?

Be it a temporary solution, or a permanent, or a backup, Mobile Substations / E-Houses provide great flexibility and ease with plug and play power supply solutions. They are quick and easy to install and drastically reduce the construction lead time as compared to a conventional substation.

What is a mobile substation?

Mounted on skids, trailers or in containers for rail, road or air transportation, these substations come in the form of ready-to-connect, complete assemblies and are designed for grid code compliance and easy mobility. Mobile Substations is a completely self-contained trailer mounted substation with capacity upto 132 kV 31.5 MVA.
