Overview

Do battery energy storage systems look like containers?

C. Container transportation Even though Battery Energy Storage Systems look like containers, they might not be shipped as is, as the logistics company procedures are constraining and heavily standardized. BESS from selection to commissioning: best practices³⁸ Firstly, ensure that your Battery Energy Storage System dimensions are standard.

What is the standard of reference for lithium ion battery transport?

B. Battery transportation As mentioned in the Request for Proposal section, the UN38.3 certificate is the standard of reference when it comes to Lithium-ion battery transportation.

Where is MCM battery testing based?

Hardware technical support: MCM laboratories distribute in Guangzhou, Guiyang, Suzhou, and Changsha, the professional battery testing base area is more than 20,000㎡. MCM has already issued over 50,000 UN38.3 test reports for global clients.
