

SolarInvert Energy Solutions

Solar power system supplied to Lesotho

Overview

How much does Lesotho government contribute to solar power project?

Lesotho Government Contribution to this project is estimated at M220 million which will cover the costs of land compensations valued around M57 million, Tax obligations as well as operating costs of Lesotho Electricity Generation Company (LEGCO). The government is implementing 70MW solar electricity generation project at Ramarothole in Mafeteng.

Will Lesotho build its first IPP solar project?

Scatec has entered an agreement with the Lesotho Electricity Company and the Government of Lesotho to build the country's first IPP solar project of 20MW. The Power Purchase Agreement, and Connection Agreement and Implementation Agreement were signed at an official ceremony in Lesotho capital Maseru last week.

Who financed 30MW solar project in Lesotho?

A Chinese based contractor SINOMA-TBEA Consortium has been engaged to construct the 30MW solar project. The project is under the direct supervision of Lesotho Electricity Generation Company (LEGCO). Phase I (30MW) of the project is financed by a soft loan from EXIM Bank of China with total contribution of USD 70.188 million.

Does Lesotho have electricity?

Scatec will build, operate and majority own the facility under a 25-year Power Purchase Agreement with financial close expected early next year . Lesotho relies mostly on hydropower but is not energy secure and energy access rates are low. Only around 6% of rural households are connected to the grid.

What is Lesotho solar energy society?

Lesotho Solar Energy Society (LeSES) acts as a platform for the industry and clean energy expert groups to exchange information and implementation of

an industry code of practice. Hlotse, Leribe, Lesotho. Decentralized renewable energy production (biogas and solar) and energy saving technologies (stoves), technical training.

What is rammothole solar power project in Lesotho?

The project will be under the direct supervision of Lesotho Electricity Generation Company (LEGCO). The 70MW Rammothole solar power project is planned to be implemented and built in two phases: Phase I: 30MWp with construction period of 18 months and Phase II: 40MWp to be completed in 2030.
