Supercapacitor production in Eastern Europe

Overview

Where is Europe's largest supercapacitor production facility located?

The Estonian battery specialists from Skeleton Technologies are building Europe's largest supercapacitor production facility in Saxony with the support of Siemens. Skeleton Technologies is investing 220 million euros in the now announced new production facility in Markranstädt near Leipzig in Saxony.

Where will supercapacitors be made?

BERLIN, July 19 (Reuters) - Estonian energy storage tech firm Skeleton Technologies will build a new factory, planned by Siemens (SIEGn.DE), for supercapacitors near Leipzig, Germany, with production to begin in 2024, the company said on Tuesday.

Will Skeleton Technologies & Siemens make supercapacitors in Germany?

Leipzig, Germany - 19th July 2022: Skeleton Technologies and Siemens are announcing a far-reaching technology partnership for the development, planning and implementation of a fully automated, digitalized manufacturing plant to produce supercapacitors in Germany.

Where does skeleton manufacture supercapacitors?

Skeleton will invest 220 million EUR in scaling up its production of supercapacitors in Germany. The company has chosen Markranstädt in Leipzig area to establish its second manufacturing site in Saxony, with SOP expected in 2024.

How many supercapacitor cells will Estonia produce in 2024?

Estonian supercapacitor manufacturer Skeleton Technologies recently unveiled plans to build its second manufacturing site in the German state of Saxony, where it expects to produce up to 12 million cells per year starting in 2024.

Are supercapacitors a key element in reducing emissions?

Supercapacitors are a key element in drastically reducing emissions in these sectors.” The factory in Markranstädt will produce up to 12m cells a year and have an output 40 times greater than Skeleton’s other site in Saxony, which will continue as an R&D factory in the future.
