## Overview

---

Does China have a tax rebate for solar panels?

China's Ministry of Finance and State Taxation Administration have announced a reduction in the export tax rebate for photovoltaic products. Starting Dec. 1, the rebate for unassembled solar cells (HS Code 85414200) and assembled PV modules (HS Code 85414300) will drop from 13% to 9%.

Does China's PV cut 4% export tax rebate rate?

China's PV cuts 4% export tax rebate rate a big deal On November 15, China's Ministry of Finance and the State Administration of Taxation announced a reduction in the export tax rebate rate for certain products, including refined oil, photovoltaic (PV) products, batteries, and some non-metallic mineral products, from 13% to 9%.

How does China's rebate rate affect photovoltaic exports?

This represents a 4% decrease in the rebate rate for photovoltaic exports, significantly impacting China's PV market, which heavily relies on exports.

Which PV products have reduced export tax rebate rates?

According to the above-mentioned government announcements, PV products included in the list of products with reduced export tax rebate rates are for PV cells, either installed or not in modules.

Why is the solar export tax rebate coming down?

For solar, the rebate has been available since 2003. According to industry experts, the move to bring down the export tax rebate is aimed by the administration at checking overcapacity concerns because of which prices in the PV industry have dropped to record lows.

What are the changes to the export tax rebate rate?

Meanwhile, the export tax rebate rate for some refined oil products, photovoltaic products, batteries and certain non-metallic mineral products will be reduced from 13 percent to 9 percent.
